### Description

Food is a fantastic vehicle to provide an exciting learning adventure that will captivate students as they are the “STARS” in this workshop. Students expand their discovery of the incredible world of cooking, health and nutrition through this workshop while they practically apply social studies into their daily lives. Christopher Columbus will thrill students as they discover about the roots of American history. They will learn the purposes and adventures of this Italian explorer and colonizer. Students will gain perspective from the different people involved such as Amerigo Vespucci and others. Students will enjoy a cooking demonstration and taste a special dish made during that time. A lively presentation about Christopher will allow students to climb on board the Nina, the Pinta, and the Santa Maria as it embarks on adventures in the New World.
