

Chefsville-Kids: Matter, Energy and Our Earth

(Assembly and Classroom Programs)

On-Campus

Time: 9am - 2:15pm, evenings for PTA/PTO orgs

Grades: K – 5

Community/Family, Talented/Gifted, Special Ed, Bilingual

Description

Food is a fantastic vehicle to provide an exciting learning adventure that will captivate students as they are the “STARS” in this grade level program. Students discover the exciting and incredible world of cooking, health and nutrition through the passions of a real Chef as they see how to apply Science. Students will shine as they use scientific processes and concepts in order to engage their world as it relates to cooking, health and wellness. Age/grade appropriate exercises and demonstration of real-world scenarios using scientific concepts will help students discover and make sense of their world. Lively cooking and engaging activities; informative lessons; games; and relays allow students to develop life-skills to make healthier choices for their success. Focus will be matter and energy for this workshop. Students will learn about different scales of temperature and states of matter, go from historic discoveries to see how matter and energy are used during our present time. Students will learn about life-sciences and how matter and energy are present. Kids will make observations regarding plants, animals, fruits and vegetables, spices and herbs along with how our ecosystem affects them. Kids will also observe property and matter along with their changes and the effects of man’s manipulation.

Students will

- Learn about states of matter and mass
- See demonstrations where chemical reactions change matter
- Discover how matter, mass, volume are present in the world around them
- Partake of a cooking demo and tasting requiring matter and energy changes
- Learn about different forms of energy and how they are present every day around us
- Show how matter and energy are present in life-sciences

Dates: Monday – Friday 9am – 2:15pm; evenings available for clubs & PTA/PTOs

Duration: 30 minutes – 1 hour depending upon grade level

Price: \$299 Assembly / \$169 Classroom
